

## THE HAND OF HARRIS.

## Gets in Deadly Work on the License Ordinance.

LIVELY MEETING OF  
TOWN TRUSTEESMarshal Makes an Indecent Show of  
Himself.The Zingg Case Is Discussed and  
Dropped Like a  
Hot Spud.

There was excitement enough at the meeting of the Board of Town Trustees last evening to suit almost any one. There were more acts than in a three ring circus. The Hand of Harris showed up in the proceedings at frequent intervals, but the many small schemes that he had evidently planned miscarried.

Edward Head, who earns \$35 a month for ringing the curfew bell made an indecent show of himself, but then he can hardly be blamed. Tony Schweer had given him instructions and Mr. Head dare not disobey his chief.

In anticipation of the new license ordinance coming up, the meeting room was filled with merchants interested in the matter. T. Want-office Harris and A. Funny Schweer were there also to see that everything went along nicely.

The Zingg case was bought up, but, as predicted by the TIMES, there was a disposition on the part of the marshal to shift the respon-

sibility onto other shoulders. He succeeded in putting the burden onto Town Attorney Palmer. Zingg, however, was not molested.

Trustee Hortenstine was not present at roll call, but wandered in later. Applications for renewal of liquor licenses were filed by Philip Kolb, H. Reimers, William Napier and Nevis & Lewis. Their bonds were approved and the applications went over under the rules.

Ozias d'Anis applied for a license to conduct a saloon in the store formerly occupied by Joseph Mello. The same action was taken on his bond and application. The following claims were presented and ordered paid:

Dr. W. H. Cope, Health Officer, Salary, Feb. 15th 1897 to August 15th 1897.....	\$25.00
J. Bollinger, street work.....	2.00
Town Advertising.....	3.75
J. R. Palmer, salary as Town Attorney, June 1st to Sept. 1st 1897.....	25.00
Wm. Brophy, services as recorder.....	9.00
James Gillis, street sprinkling.....	78.00
R. Clark, street sprinkling.....	32.00
John Bradshaw, salary.....	25.00
E. E. Head, salary as Marshal.....	35.00
Thos. Ryan, street work.....	4.25
George Gilson, street work.....	9.50
H. Deijens, supplies.....	2.25
J. H. Neal, salary and supplies.....	33.30
J. M. Mendenhall, salary as Supt. of streets, 6 months.....	60.00
Total.....	309.05

The Town Treasurer reported a balance on hand of \$1,400.25. The Marshal reported the collection of 1 retail liquor license, \$30; 1 fruit peddler license, \$5, and 1 solicitor license, \$2.50; total, \$37.50.

The Superintendent of Streets reported the expenditure of \$18.50 in his department during the month.

Just after the reports were read the Head played the little part put down on the bills for him by the Schweer. The TIMES representative has always been shown the courtesy of a chair at the clerk's desk. Some time ago when the Schweer made a show of himself before the Board, and had a lurid speech reported in full, he vowed and declared that the TIMES man would never write another line at a Board meeting, and would never more be allowed to wield his pencil on the clerk's desk. He instructed the Head to scoop the TIMES chair and make the scribe stand up.

The Head was a little independent then and did not follow instructions, but he fell down last night and did the bidding of his master like a real nice little man. He originally occupied a seat on one of the benches. He was never so polite in his life. Every one who came into the meeting room was offered a seat by the Marshal until he finally found himself standing up. That was his opportunity. He grabbed the TIMES chair and asked the scribe to vacate.

President Napier did not notice the move until he saw the newspaper chap looking around for a place to write. He very kindly offered him his chair and desk, but the TIMES man had found a board and a soft seat on the floor, and the meeting went on.

Mrs. C. C. Campbell was granted her liquor license without a protest.

The motion was made by Trustee Hortenstine, seconded by Trustee Martin.

The President called for a report from the Ordinance and Judiciary Committee. The proposed license ordinance had been handed to Mr. Nevis, a member of the committee, and it was expected he would introduce it. But Mr. Nevis was as mum as the proverbial oyster. He had always expressed himself as favoring such an enactment. The ordinance was introduced, however. It had found its way to the pocket of Mr. Martin, and he produced it with evident pleasure and satisfaction. He is a peculiar man. He is always sure he is right before he goes ahead, and when he fully makes up his mind that he is right, no power on earth can swerve him from his course. He believes in placing a reasonable license tax on merchants and is not afraid to say so.

"I think this is one of the best and most important moves the Board has ever had before it," said Mr. Martin. "The town needs a great deal in the way of water and lights. To get what we need we must have money, and the only way to get the money is to make the merchants and business men contribute their mite in the way of licenses."

The ordinance as read was nothing like the one prepared by President Napier and Clerk Neal and turned over to Mr. Nevis. It was evident that the Hand of Harris had got in its deadly work during the interim of a day and had fixed the document to suit his tastes and to be oppressive to everyone else. For example, the tax on insurance agents which was originally fixed at \$2 per annum was changed to \$4 per quart for each company represented. Mr. Harris is an in-

## KEEP THE SEVENTH DAY

Rev. R. Logan's Sermon at the Union  
Meeting.Plea for Merchants to Give Their  
Clerks a Day of  
Rest.

At the union meeting held last Sunday at the M. E. church Rev. R. Logan preached the following sermon on "Sunday Observance: 'Lev. 19-30. Thou shalt keep my Sabbaths and reverence my sanctuary.'"

"There are four laws in force today, always have been and always will be in force requiring us to rest one day in seven. I am sorry that among these laws I cannot mention the State law of California. Our law makers legislate against stealing, against perjury, against murder and other acts which injure man, but they seem to be quite indifferent to our treatment of our Father in heaven. There is, however, higher authority than the State laws and to this we appeal.

"The first is the law of God. This law I presume is as old as the human race. It is not a Mosaic institution as some affirm. It was not born amid the lightnings and thunderings of Sinai. Before the Lord commanded the Sabbath we find the Sabbath mentioned (see Exod. 16:23.) Its requirements were more definitely set forth in the decalogue. The very first word however, is evidence that the law already existed. 'Remember the Sabbath day to keep it holy, six days shalt thou labor and do all thy work, etc.'

"This is a double command. A

command to work and command to abstain from working."

"By the fourth commandment we are as much commanded to work six days as to rest the seventh. The idler violates this law as certainly as the Sabbath breaker.

"Man's natural desire for gain has ever tempted him to violate the Sabbath. This was one of the evils that the great preacher and reformer Nehemiah, had to contend against. Chap. xiii, 15-18. 'In those days I saw in Judah some treading wine presses on the Sabbath, and bringing in sheaves and lading asses, as also wine grapes and figs, and all manner of burdens which they brought into Jerusalem on the Sabbath day. \* \* \*

"There dwelt men of Tyre also therein which brought fish and all manner of ware and sold on the Sabbath unto the children of Judah and in Jerusalem.

"Then I contended with the nobles of Judah and said unto them, 'What evil thing is this that ye do, and profane the Sabbath day. Did not your fathers thus and did not our God bring all this evil upon us and upon this city? Yet ye bring more wrath upon the city by profaning the Sabbath.'"

"There is a very striking reference to the Sabbath in Isaiah 58:13. 'If thou turn away thy foot from the Sabbath, from doing thy pleasure on my holy day and call the Sabbath a delight, the holy of the Lord, honorably and . . . honor him not doing thine own ways nor finding thine own pleasure, nor speaking thine own words. Then shalt thou delight thyself in the Lord and I will cause thee to ride upon the high place of the earth \* \* \* for the mouth of the Lord hath spoken it.'

"Again we are told 'Thou shalt

I cannot say enough for its merits." Dr. King's New Discovery for Consumption, Coughs and Colds is not an experiment. It has been tried for a quarter of a century, and today stands at the head. It never disappoints. Free trial bottles at Cutler & Silver's drug store.

## THE HAND OF HARRIS

Continued from first page.

surance agent but he represents fewer companies than any other agent in town. Then he had run his pen through the typewritten copy where the words PLEASANTON TIMES were used and had inserted the name of his own paper.

President Napier scored whoever had made such a change, as, he said, it would invalidate the whole proceedings as the Harris sheet was not the official paper of the town.

This seemed to make Mr. Nevis uncomfortable and he promptly moved to lay the ordinance over until the next meeting. The motion was carried and the ordinance went into the hands of the Judiciary Committee. It is conceded that the Hand of Harris has killed it.

Trustees Hortenstine and Martin were appointed a committee to consult with the Supervisors with regard to the ownership of the sprinkling cart used by Major Gillis. Supervisor Wells explained it was county property, but would unquestionably be turned over to the town if the Trustees made the proper showing. He also stated the county would pay one-third the expense of pumping the water at the tank north of the Main street bridge, as that proportion of it is used sprinkling the county road.

Marshal Head was asked for a report.

"I have nothing to report," he said, "except the arrest of O. A. Zingg for selling liquor after midnight. The case was dismissed. I don't know whether Mr. Palmer wants to bring it up here or not."

The Town Attorney explained he had nothing to do with it. A general discussion followed on the merits, demerits and defects of the ordinance, and the attorney got it on all sides for not prosecuting the Zingg case instead of moving for its dismissal.

President Napier said that under the ordinance it was not the duty of the Marshal to arrest a saloon keeper for selling liquor after midnight. "All he can do is to report the matter to this Board, and then if we find the accused party has been raising a disturbance or anything of that kind we can take his license away."

The Town Attorney advised that if a saloon-keeper had a permit to keep open after hours on any special occasion, signed by the members of the Board, it was binding whether the signatures had been obtained while the Board was in session or not.

### OUR BEETS ARE BEST.

Pleasanton Product Leads in Excellence.

Work at the Alameda Sugar Refinery, Alvarado, is beginning to boom. Beets are coming in rapidly from the different sections in which they were contracted for. Four or five hundred tons are being received and piled up in the extensive sheds of the company. Of course they will soon begin arriving in larger quantities, when 800 tons a day will be needed to keep the establishment going.

Unfortunately most of the beets are poor this year. The dry weather of the past season has affected them so that they do not contain the average amount of saccharine. There are exceptions, however, and the Pleasanton beets are fine in quality.

## KEEP THE SEVENTH DAY

Continued from First Page.

keep my Sabbaths and reverence my sanctuary." Many other passages might be quoted, but these will suffice.

"The second we will call physical law. It has been clearly demonstrated in the past that man's physical nature requires a rest of one day in the seven. At one time the French in their desire to get as far from God as possible, abolished the Sabbath and by law established every tenth day as a day of rest. But it would not work and so they returned to the old system.

"I read a few days ago in the newspapers of two Christian Endeavorers from Fruitvale who went to the Alaskan gold fields. In crossing the trails they were the only ones who rested on the Sabbath. Did they lose by it? No, they were among the first at the journey's end. And so I firmly believe that every merchant, every farmer, every laborer will be better off at the end of the year by resting on the Sabbath. I believe he will be better off in health, spirits, purse and conscience.

"The third is the law of spiritual life."

Man is not simply a pile of matter. He is a trinity of being, like the God in whose image he was made. He has a physical, an intellectual and a moral nature. Of these the highest is the last mentioned. The moral nature is the soul which will live long after the body has returned to its original elements. I firmly believe that one great object of the Sabbath is to give an opportunity for soul-feeding and soul growth. Thousands feed and pamper the body and cultivate the mind, but leave the soul to starve and die. In this connection it is timely to remember the words of our Lord, "What shall it profit a man though he gain the whole world and lose his soul?"

"Lastly there is the law of self-interest or self-preservation. Man naturally desires to do that which will be of the highest advantage to himself. Convince our business men that they would be better off at the end of the year by observing one day in seven and they would soon find a way to close up on Sundays.

"Such I firmly believe to be the case. If the mind is on our work all the time it grows weary and incapable of doing its best work. Much of the success of business, I may say all depends on having and keeping a clear head for business. This can best be done by shutting out business cares for one day in the week and allowing new thoughts, elevating thoughts, thoughts of God and heaven to take possession of the mind.

"Clerks and other help will do better work, do it more cheerfully and more effectively by allowing one day in seven to rest. As to the particular day in the week in which we should rest I believe that it makes no difference. The seventh day is nothing more than the day after the sixth. I defy any man to put his hand on any day of the calendar and prove that it is absolutely the first or seventh day of the week. It is a matter of principle not of days, and the principle is divine, it is that man should rest one day in seven. As endless confusion would result if every man were allowed to choose his own day, it is better that all should agree upon a certain day and keep it as God would have us keep it. Keep it as our Lord himself kept the Jewish Sabbath by going to the synagogue and mingling with those who worshipped there."

Moments are useless if trifled away, and they are dangerously wasted if consumed by delay in cases where One Minute Cough Cure would bring immediate relief. Cutler & Silver

Miss Helen Sanford, of Sunol, spent Saturday and Sunday visiting her old friends in Pleasanton. She was a guest at the home of Mr. and Mrs. John Bradshaw.

Mrs. C. A. Bruce went to San Francisco today. She has been having trouble with her eyesight, and the purpose of her trip is to have her eyes examined by an oculist.

Rudy Marshal, one of the old time newspaper men, but now clerk of the Supreme Court, was in Pleasanton Sunday armed with a camera. He took snap shots at the hop yards.

Thomas H. Rush, editor of the "National Guard Bulletin," put his card under the door of the Times sanctum Sunday. Sorry we did not have the pleasure of meeting him.

## Boarders on a Strike.

The boarders at the hop yard restaurant, which is conducted by the managers of the Rose Hotel, went on strike yesterday. The cause was the quality of the food furnished. It is stated the bill of fare consisted of hash three times a day. Occasionally a beefsteak was on the program, but its toughness defied the edge of the keenest ax. Pancakes were cooked occasionally, but they were never eaten. They may be sold to the town for street paving.

The "Bicyclist's Best Friend" is a familiar name for DeWitt's Witch Hazel Salve, always ready for emergencies. While a specific for piles, it also instantly relieves and cures cuts, bruises, salt rheum, eczema and all affections of the skin. It never fails. Cutler & Silver.

## Dogs Attack Sheep.

Some dogs got into Rod Fallon's band of sheep at the Atkinson place Monday night and created havoc. They drove the sheep into a corner of the pen where the poor creatures piled on top of each other and many were smothered to death. Others fell into the sheep dip and were drowned. Many were attacked by the dogs and severely mangled. Thirty sheep were killed outright while at least fifty others were maimed. Mr. Fallon places his loss at \$400. There were 340 sheep in the band.

Small precautions often prevent great mischiefs. DeWitt's Little Early Risers are very small pills in size, but are most effective in preventing the most serious forms of liver and stomach troubles. They cure constipation and headache and regulate the bowels. Cutler & Silver.

R. Z. Anderson, an extensive fruit buyer of San Jose, was in Pleasanton Tuesday, contracting for some of the fruit of this section.

To heal the broken and diseased tissues, to soothe the irritated surfaces, to instantly relieve and to permanently cure is the mission of DeWitt's Witch Hazel salve. Cutler & Silver.

### Main's Big Circus Will Soon Be With Us.

The train bearing Walter L. Main's big circus will arrive at Livermore next Wednesday morning, and the tents will be pitched near the depot. This is the first visit of the Main Circus to the Pacific Coast and the newspapers of every city it has visited have been most lavish in their words of praise for the ring performances, the wild animals, the horses and the glittering equines. Many persons have said that the Main Circus is one of the largest and best that have ever visited California. The ring performance is said to abound with new features. Like all of the big circuses of modern times, the Main circus has three rings, and the elevated stages. The street parade is said to be a brilliant affair, and, as the posters blithely announce, never fails to attract attention of thousands upon thousands of people.

### Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed when the languid, exhausted feeling prevails, when the liver is torpid and sluggish and the need of a tonic and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal bilious fevers. No medicine will act more surely in counteracting and freeing the system from malarial poison. Headache, Indigestion, Constipation, Dizziness yield to Electric Bitters. 50 cents and \$1.00 per bottle at Cutler & Silver's drug store.

## CONNALLY CAPTURED.

### Star Boarder of the Rose Is Hauled Back.

Frank Connally, the man who entertained the elder Jimmy Whalen and who got the best of the Rose Hotel, was captured Sunday at Livermore and brought back to Pleasanton. He was found working at the Robertson sanitarium. He offered to settle his \$6 bill at the Rose for \$10, but the management had got its back up and would not compromise for a Klondyke gold mine.

Connally claims he was at one time an inmate of the Ukiah asylum, and just previous to his advent in Pleasanton had been arrested in Oakland on suspicion of insanity. It is evident from the man's actions that he is not right in his mind. His screaming, screeching and antics in the jail have made night hideous.

His trial on a charge of defrauding an innkeeper took place today. Deputy District Attorney Stetson is prosecuting the case. The jury disagreed.

### Got a Black Eye.

Jesse Mendenhall, of Pleasanton, was right in the recent "rush" at the U. C. in which broken heads and shattered bones were the order. He escaped lucky. He only got a black eye, but it is awful black.

No man or woman can enjoy life or accomplish much in this world while suffering from a torpid liver. DeWitt's Little Early Risers, the pills that cleanse that organ, quickly.

The Menetouka Medicine Company which has been playing to well filled houses at Danville for the past ten days, will open in Rose Hall next Friday night for a week's engagement. Fun and amusement for all. Call and see them.

### Notice.

In order to introduce my new photos, I have reduced the price, and for a short time only I will make first-class highly finished photos, only \$1.25 per doz. At the American Art Studio, next to the Rose Hotel, Pleasanton, G. F. MADISON, Photographer.

The dance given last Saturday evening at Johnston Hall by the employees of the Pleasanton Hop Company was an unqualified success. A large crowd was in attendance and there was nothing to mar the pleasure or comfort of the guests.

George Harden was acquitted by a jury in Judge Brophy's court on a charge of displaying firearms in a threatening manner. The complaining witness was J. Rosenberg who had a dispute with Harden over a 40 cent wash bill.

"Saved From the Horrors of Nervous Prostration" by Dr. Miles' Nervine.

A COUGH does not always indicate consumption. Mr. W. H. Palmer, of Waterloo, Iowa, writes: "I was taken with a nervous stricture of the bronchial tubes, which developed into nervous prostration. I was so weak I could not sit up. I got no sleep for days except when under the influence of opiates. For four months I suffered agonies and prayed that I might die and be at rest. One physician said I had consumption, for I had a cough that gave me no rest. But a good old physician, whose medicine had failed, advised me to use Dr. Miles' Restorative Nervine and I thank God that it has brightened my days, lengthened my life and saved me from the horrors of nervous prostration."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on Heart and Nerves sent free to all applicants. DR. MILES MEDICAL CO., Elkhart, Ind.
